

ORDER IN 4 EASY STEPS

1. Select Mount Type:

INSIDE

- Mounted within the window frame
- Provides a clean, built-in look
- Great way to leave attractive woodwork exposed
- For minimum depth required for secure mount, see page 72
- If window frame isn't deep enough please select outside mount

OUTSIDE

- Great option when there is not enough depth for an inside mount
- Mounted to the wall, ceiling or molding surface surrounding the window
- Often used to make the window appear larger or to hide a less attractive window or door
- No minimum depth requirement
- Minimum flat surface (on wall, ceiling or frame) required for secure mount: 1 1/2" (1" blinds), 2 1/2" (2" blinds)

2. Measure:

INSIDE

- STEP 1: Measure the inside width at 3 locations - the top, middle and bottom. Record the smallest of the 3 measurements. This is your ordering width. We will make the necessary deductions (approx. 1/2").
- STEP 2: Measure the height at 3 locations - the left side, middle and right side. Record the largest of the 3 measurements. This is your ordering length.

OUTSIDE

- STEP 1: Measure the width of the area you wish to cover. If space allows we recommend adding 2-3" (1-1 1/2" each side) to this measurement to help eliminate light seepage. This is your ordering width and will be the overall measurement of the blind (valance will be approx. 3/4" wider than blind).
- STEP 2: Measure the height of the area you wish to cover. This is your ordering length.

3. Select Tilt Type:

WAND

- Operates slats with a simple twisting motion
- Standard on 1" wood and metal
- NO CHARGE

CORD

- Control the slats by gently pulling on cords
- Available on 2" wood and metal only
- NO CHARGE

4. Select Control and Tilt Position:

A) TILT LEFT / CONTROL RIGHT

B) TILT RIGHT / CONTROL LEFT

C) BOTH TILT AND CONTROL ON RIGHT
-18" minimum width
-not available on 2" doverwood

D) BOTH TILT AND CONTROL ON LEFT
-18" minimum width
-not available on 2" doverwood

+ Optional Feature:

2 BLINDS ON 1 HEADRAIL

- 2 blinds hang from the same headrail and operate independently
- Total width you provide will be divided equally making both blinds equal size (contact us for specialty requests)
- Great when covering a wide expanse
- Small gap (approximately 1/4" - 1/2") will exist between the 2 blinds
- Required for wood blinds >72" wide to stay within warranty
- \$25 SURCHARGE

PRICING + ORDERING GUIDE: Wood Blinds / Metal Blinds
