

ORDER IN 6 EASY STEPS

1. Select Mount Type:

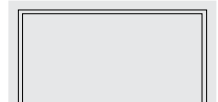

INSIDE

- Mounted within the window / door frame
- Provides a clean, built-in look
- 2 1/4" Inside depth required for secure mount
- If window frame isn't deep enough please select outside or ceiling mount

OUTSIDE / CEILING

- Great option when there is not enough depth for an inside mount
- Mounted to the wall or molding surface surrounding the window or directly to the ceiling.
- Creates an illusion of extra height to a room
- No minimum depth requirement
- Minimum of 2" flat surface required if mounting to wall or frame

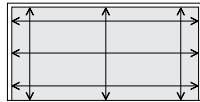

2. Measure:

INSIDE MOUNT

STEP 1: Measure the inside width at 3 locations - the top, middle and bottom. Record the smallest of the 3 measurements. This is your ordering width. We will make the necessary deductions (approx. 1/2").

STEP 2: Measure the height at 3 locations - the left side, middle and right side. Record the smallest of the 3 measurements. This is your ordering length.

Please note, we recommend the panels to be 1" off floor/sill.

OUTSIDE / CEILING MOUNT

STEP 1: Measure the width of the area you wish to cover. (If space allows we recommend adding 6"-12" to help maintain view/light when panels are open) This is your ordering width.

STEP 2: Measure the height of the area you wish to cover. This is your ordering length and will be the measurement from the top of the track to the bottom of the panels.

Please note, we recommend the panels to be 1" off floor/sill.

3. Select Control Type:

CORD

- Open and close panels by pulling on cord
- Comes with pulley which can be secured to wall
- NO CHARGE

BATON

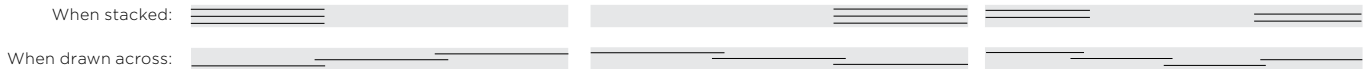

- Open and close panels by using hand drawn baton
- NO CHARGE

4. Select Direction to Open:

ONE WAY DRAW: STACK LEFT / DRAW RIGHT

ONE WAY DRAW: STACK RIGHT / DRAW LEFT

SPLIT DRAW

5. Select Control Position:

IF YOU SELECTED CORD DRAW:

Choose LEFT or RIGHT

IF YOU SELECTED BATON CONTROL: No position to choose

- ONE WAY DRAW: Single baton will hang on front edge of leading panel
- SPLIT DRAW: Two batons will be located in the center, operating each side independently

6. Select Lining Option: (Woven Woods only)

UNLINED

- No lining added to your window treatment
- NO CHARGE

PRIVACY LINING

- Offers privacy and provides light control
- Neutral appearance to the outside
- 20% SURCHARGE

BLACKOUT LINING

- Provides complete privacy and reduces light transmission by approximately 97%
- Great for bedrooms, media rooms, or wherever light blockage is desired
- Neutral appearance to the outside
- 30% SURCHARGE
