

steel drapery hardware

installation instructions

www.theshadestore.com

thank you for purchasing from the shade store. simply follow our step-by-step instructions, and your high-quality drapery hardware will soon help enhance your home or work space for many years to come

getting started

please read through all instructions before you begin installation.

open the tube by prying the end open with a screwdriver.

unpack all materials making sure all components are included.

- screws
- pole
- drapery rings
- mounting brackets with allen key
- finials

please note that your brackets must be securely attached to the mounting surface. if your screws do not hit wood studs you'll have to use a different fastener which can be found at any local hardware store.

tools you will need

- drill with a 1/8" bit & a phillips bit
- phillips screwdriver
- metal tape measure
- hacksaw (optional)

warranty

the shade store drapery hardware are covered by a limited lifetime warranty. this warranty covers any defects in materials or workmanship so long as the product is measured and installed according to instructions. every shade store window treatment is designed to provide trouble-free use. in the unlikely event that warranty service is ever needed, simply contact customer service at install@theshadestore.com or 800-754-1455 for assistance.

INSTALLING YOUR STEEL DRAPERY HARDWARE

you are now ready to install your hardware.

1. measure

measure the area you are covering and cut down pole accordingly. cut with hacksaw.

2. mark

mark the height you would like the top of drapery pole to be installed at. note: the top of the drapery will hang down approx. 2" from the top of the pole.

3. mount

take the back plate off the bracket and place top of plate at marked height. drill in screws through the top and bottom holes for a secure mount. repeat this process for all other brackets

4. attach bracket

take the bracket and screw it onto the installed back plate, turning by hand in a clockwise direction. turn until tight. repeat this process with other brackets

5. attach rings and poles

slide rings onto pole. you may want to leave one ring on the outside of each of the end brackets. set the pole on the brackets.

6. attach finials

attach finials to both ends of the pole.
